QG series

QG40-KD-010H-AV-CM-UL

Inclination sensor

2-axis

Non-programmable device

Output: 0,5 - 4,5 V

2-axis horizontal mounting 1-axis hori-/vertical mounting

For demanding applications

Measuring range ± 10°

QG series

DIS sensors

Uout = $2.5 + 11.52*sin(\alpha)$ [V]

output clipping outside measuring range at 0,3 V and 4,7 V approximately

QG40-KD-010H-AV-CM-UL

0° positions drawn in plot at the right.

Horizontal mounting: 1-axis or 2-axis usage Connect output-X and/or output-Y according the plot at the right.

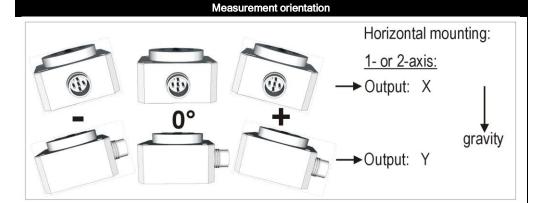

In case of 2-axis usage: Tilting one axis will influence the other axis, significant influence (10%) when > 25°.

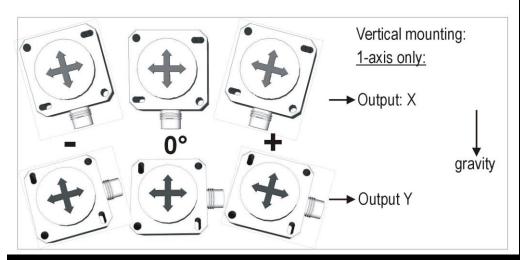

Upside down mounting possible (sensor-nose down)

Vertical mounting: 1-axis usage only Connect output-X and/or output-Y according the plot at the right.

Connector down: Y-output not valid Mounting with M12 to top possible

Connector side: X-output not valid Mounting with M12 to left possible

Connection

Wire / pin coding

Connectivity (length ±10%)

M12 5p male connector (Glass fibre reinforced grade, contacts CuZn pre-nickeled galv. Au)

 Pin 1:
 + Supply Voltage

 Pin 2:
 output Y

 Pin 3:
 Gnd

 Pin 4:
 output X

 Pin 5:
 not connected

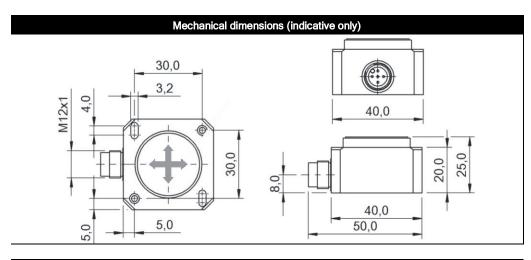

If connected with M12 F (accessory sold by DIS):

Brown: '+ Supply Voltage White: output Y

White: output Y
Blue: Gnd
Black: output X
Green/yellow: not connected

Intended use, UL, Remarks

QG series sensors are intended to measure inclination, acceleration or tilt angle after installing in machines, equipment and systems. Flawless function in accordance with the specifications is ensured only when the device is used within its specifications. This device is not a safety component according to the EU Machine Directive (ISO13849). For full redundancy two devices can be used in the application. Modifications or non-approved use are not permitted and will result in loss of warranty and void any claims against the manufacturer.

UL certificate: UL File number: E312057
UL & c-UL listed product (UL508 standards UL60947-5-2 & CSA-C22,2 No. 14)
Product Identity / Category Code Number (CCN): Industrial Control Equipment / NRKH & NRKH7
Enclosure / Temperature rating: Enclosure type 1 / Temperature -40° . .+85 °C
Electrical rating: Intended to be used with a Class 2 power source in accordance with UL1310
Electrical ratings: max. input Voltage 30V dc, max. current 500mA
Accessory Cable Assembly: Any UL-listed (CYJV/7) mating connector with mechanical locking, wire thickness of at least 30 AWG (0,05 mm²), recommenced ≤23 AWG (≥0,25 mm²)

As this device is accelerometer-based the sensor is inherent sensitive for accelerations/vibrations. Application specific testing must be carried out to check whether this sensor will fulfil your requirements.
