

## REACH DECLARATION

Dear reader,

This letter is to state that the sensors from our standard portfolio, without cables, are compliant with the following EU Directive:

**Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) (as amended)**

- DIS Sensors BV acts, in accordance with the above-mentioned regulation, as a **downstream user** (manufacturer of products). We source all components used to produce our sensors from suppliers, which have already assessed conformance to the above mentioned directive.
- DIS Sensors BV confirms that above-mentioned products are known not to contain substances mentioned on the **Candidate List** of the Substances of Very High Concern (SVHCs), dated 14 June 2023, for Authorization of the above referenced EU directive.

This declaration has been prepared and issued based on currently applicable laws and regulations and our best knowledge and expertise currently available. This declaration replaces all previous ones relating to this subject.

This declaration does not cover customer specific sensors.

Yours sincerely,

P.A.H. Hoksbergen  
QA Approval Engineer

7 December 2023
